

DIMITAR CHOLAKOV

Junior Software Developer

ABOUT ME

I'm responsible, hardworking and fast learning junior developer. My background is mainly in industry and warehousing. I know how to follow time schedules, work well in teams or on my own. I'm curious to learn more. My goal is to be happy and successful in what I do and build a career in this field.

EDUCATION

Full-stack web development course (09.2020–03.2021)
[Code Institute \(Ireland\)](#)

The Full-Stack Software Development course gives hands-on experience creating employer-ready web technologies. Content is Industry-Validated and University Credit-Rated.

Five day coding challenge (07.2020)
[Code Institute \(Ireland\)](#)

This coding challenge helped me understand coding from both a theoretical and practical point of view. The challenge is covering the three pillars of modern front end software development – HTML, CSS and JavaScript.

Business Administration (2001 - 2006)
[High School of Economy 'Karl Marks' \(Bulgaria\)](#)

EXPERIENCE

07.2020 - now: I've built my **coding experience** mainly during my full-stack course by creating milestone projects to serve as my portfolio. Complete information and links to my projects can be found in my **resume website** that I've build for this purpose.

06.2016 - 07.2020: I worked in KL Industri AB (Sweden) and Man Power Group AB in the industry and warehousing area.

11.2012 - 08.2015: I worked in ELD Ltd (Bulgaria) in the sales and market developing area.

SKILLS

HTML 

CSS 

JavaScript 

Python 

I know how to use and have some experience working with **Bootstrap, Materialize, jQuery, MongoDB, Flask, Django, MySQL and GSAP.**

I improve my skills daily by learning more about the technologies I know and adding new ones.

HOBBIES
